

TT1-A

ACTIVE HIGH OUTPUT TWO-WAY SPEAKER

MAIN APPLICATIONS

- Portable and installed audio-visual systems
- Retail spaces, presentation suites, shopping malls
- Theatrical sound reinforcement
- Auditoriums, lecture halls, and theme parks
- Fill/delay applications
- Conference centers, ballrooms and houses of worship
- Effects systems; under-balcony coverage and distributed systems

MAIN FEATURES

- 800 Watt, 2 way amplification
- 10" neo woofer, 3.0" v.c.
- 1.4" neo c. driver, 3.0" v.c.
- 90° x 60° precision waveguide
- 96 Khz, 32 bit DSP processing
- Maximum output, perfect audio fidelity
- Tour grade cabinet and mechanics
- RDNNet Ready

DESCRIPTION

The TT1-A is the perfect small and powerful speaker for almost any sound reinforcement situation. Ideal for live sound situations, incredible for playback and monitoring.

The TT1-A produces the high impact, high definition sound projection expected in professional PA applications. Its wide angle projection, 90°x60° with the use of a precision waveguide, makes audience coverage easy in a variety of situations.

The TT1-A, unique in its category, features a neodymium 3,0" voice coil compression driver on a large, constant directivity, precision horn and a 10" neodymium woofer, 3,0" voice coil. The integration of the 800 Watt, two channels, digital amplification and the advanced digital processing set a new standard for distortion, noise and thermal efficiency.

TT1-A is equipped with a state of the art input board which features XLR In/Out, Gain reduction, Time Delay, Speaker presets, RDNNet ready option, RDNNet bypass switch, 4 status LEDs, Powercon In/Out

TT1-A features a 96 Khz, 32 bit DSP processing and a dedicated networking board. Using our proprietary RDNNet protocol is possible to monitor all the system parameters, from the input to the status of each single amplifier. Having a Dsp on board of each cabinet, it is possible to address to single cabinets or groups of cabinets specific presets or modifications of parameters like gain, equalisation or delay. The RDNNet protocol is based on RS-485 communication protocol, it is very stable and it is possible to send and receive data on a simple XLR cable.

All new TT+ Two-Way Systems feature a newly designed multifunctional rear encoder to easily control all the speaker functions (Gain reduction, Delay, Speaker presets), even without network connection.

Foam-backed grilles hide the drivers from view for pleasing aesthetics.

The speaker is equipped with a complete set of integrated rigging mechanics for rental or installation. Dedicated accessories to create clusters are available.

ACOUSTICAL SPECIFICATIONS

Frequency response:	55 Hz- 20 Khz
Max SPL:	131 dB
Horizontal coverage angle:	90°
Vertical coverage angle:	60°
Compression driver:	2" neo, 3.0" v.c.
Woofer:	10" neo, 3.0 v.c.

INPUT/OUTPUT SECTION

Input connectors:	xlr, RDNNet
Output connectors:	xlr, RDNNet
Input sensitivity:	+4 dBu

PROCESSOR SECTION

Crossover frequencies:	900 Hz
Protections:	Thermal, rms
Limiters:	soft limiter, dynamic
Controls:	Gain reduction, RDNNet local setup/bypass, Time Delay, Presets (Linear, Close, Far listening, High-pass), RDNNet Ready

AMPLIFIER

Total Power:	800 Watt
High frequencies:	250 Watt
Low frequencies:	550 Watt
Cooling:	convection
Connection:	powercon in-out

PHYSICAL

Height:	566 mm (22.28")
Width:	333 mm (13.11")
Depth:	370 mm (14.56")
Net Weight:	25.4 kg (559.97 lbs)
Cabinet:	baltic birch plywood
Hardware:	Installation/Rental fittings
Handles:	2 side
Pole mount cap	yes
Colour:	Black

HORIZONTAL 1/3 POLAR PLOT

VERTICAL 1/3 POLAR PLOT

TT1-A

PART NUMBER

13000377 - 230 VOLT

13000381 - 115 VOLT

DIMENSIONS (All data are in mm)

ACCESSORIES

AC TT1 H-BR	TT1-A horizontal U bracket with M10-PIN-pole mount
AC TT1 V-BR	TT1-A vertical U bracket with PIN
AC COVER TT1-A	Rain cover for TT1-A
AC TT1 PLATE	2 X TT1-A installation plate
AC TT1 END PLATE	2 X TT1-A installation end-plate
AC TT1 TOP V-BR	
AC RAIN COVER TT1-A	TT1-A amplifier rain cover
