RACK CABINET

DESCRIPTION

The CR 2600 series rack enclosures are designed to hold all RCF 19" rack standard components. The rack enclosures are bake-painted at high temperature using epoxy powders to make the structure unalterable over time and resistant to scratching, abrasion, and atmospheric agents. The CR 2600 SERIES rack enclosures are composed of a basic structure that is assembled simply and quickly by fitting and securing four steel uprights to the upper and lower panels.

FEATURES

- Constructed in compliance with the IEC 297-2 dimensional standard
- The structure is made of steel painted RAL 7035 light grey
- The protection level is IP 30
- The lower door and side panels are fitted following the wiring operations to facilitate the insertion and connection of the components
- The earthing of the rack complies with current safety regulations
- Front doors are also available, which are useful for to protect the components installed in the rack
- 3 blowers turn on due to the activation command of a thermostat included
