

MP 321

OPERATOR MICROPHONE

DESCRIPTION

The MP 321 consists of a condenser microphone with excellent directional features, contained in an anthracite grey die-cast aluminium alloy enclosure which is protected by a stove-enamelled stainless steel grille. The attractive design and reduced dimensions make the MP 321 easy to integrate into any space. The base is equipped with two buttons for activating the operator-user and the user-operator lines. A LED indicates which line is activated.

FEATURES

- Electret microphone with unidirectional polar pattern, housed into an anthracite grey die-cast aluminium alloy and protected by a painted stainless steel grille
- Equipped with 2 push-buttons to activate the operator-user line and the user-operator line respectively
- A LED indicates which line is activated
- It can be remote controlled (e.g. through a pedal switch)
