

RCF UPDATER

SOFTWARE PLATFORM FOR FIRMWARE UPDATES

Description

RCF Updater is an intuitive host application dedicated to firmware updates; the software supports a range of RCF products.

Features

- › Device auto-detect
- › Contains all the latest firmware files, no need to download separate binaries
- › Supports ART 9-AX and SUB AX families
- › Available for Windows (64-bit only) and macOS
- › Recovery Mode to force a firmware update if the device is not responding
