

SAI 2855

ANALOGUE INTERFACE

DESCRIPTION

SAI 2855 is a rack unit interface able to manage 5 analogue inputs and 5 analogue outputs to and from the language channels digital system bus. It is equipped with XLR and RCA connectors to permit the recording of 5 translated languages and to send 5 audio channels into 5 slots of the simultaneous translation system; this is important, for instance, when is needed to send to the delegates (having SDR 2599 wireless receivers or the Forum 9000 series FMS 9411 microphone consoles) pre-translated contributions alternative to the ones processed by the interpreters.

FEATURES

- It is equipped with XLR and RCA connectors to permit the recording of 5 translated languages
 - 5 audio channels into 5 slots of the simultaneous translation system
 - Having SDR 2599 wireless receivers or the Forum 9000 series FMS 9411 microphone consoles Having SDR 2599 wireless receivers or the Forum 9000 series FMS 9411 microphone consoles
