

BM 5804

MULTI ZONE PAGING MICROPHONE

DESCRIPTION

BM 5804 is a paging microphone for announcements which is part of the DXT 5000 digital system. BM 5804 can be directly connected to the MU 5100 central unit. The user will be able to send announcements, make calls, intervene on sound levels, select music sources in different areas and send routine messages or alarms stored in the system memory to the different pre-configured zones or groups of zones. The BM 5804 model has 3 configurable buttons (e.g. for zone selection). Each button has 2 LEDs (one is green, the other is a bicolour yellow/red) to show the status of the buttons. It is possible to add a label (with a description to its respective function) beside each button.

FEATURES

- Metal body with 420 mm gooseneck
- Menu based user interface with back lighted liquid crystal display (LCD)
- Pre-amplified hyper-cardioid hi-quality microphone with integrated compressor and limiter
- Complete self-diagnostic of the base (EN 54-16)
- 3 Programmable function keys for announcement or commands
- Power supply voltage from the BUS or from 24 V dc input
- Alert and evacuation indication
- Pre record message activation
