

DPS 3000

CLASS HD PROFESSIONAL POWER AMPLIFIER

Description

DPS 3000 is a 2 channel power amplifier that can handle exceptionally high power ratings in a compact and lightweight 2 rack units space. Thanks to the class HD technology, this amplifier delivers up to 2 x 1700 W RMS @ 2 Ohm (3400 W RMS bridged @ 4 Ohm), weighting just 14 kg. It comes with a 'PFC' ('Power factor correction') switched mode power supply which ensures that a predominantly resistive load is presented to the mains power supply; this also leads to an improved amplifier performance at high output levels. Thanks to its high efficiency heat sinks and variable speed DC fans, the DPS 3000 can withstand the hardest heat conditions ensuring great reliability.

Features

- › Fast response and low distortion
- › Easy to configure in stereo / mono / bridge modes
- › Extensive protective circuits ensure high reliability and operating safety
- › Front panel signal / clip / protect LED indicators
- › Minimum load impedance (stereo / mono): 2 Ohm
- › XLR input connectors
- › SPEAKON output connectors
- › Switchable limiter
- › PFC (Power Factor Corrector)
- › 2 unit 19" rack, low weight for easy transportation
