PMK60768

POLE MOUNT KIT

Description	This accessory includes a pair of half-length poles for EVOX J9, EVOX JMIX9, and EVOX J11. For EVOX J9 and EVOX JMIX9 only, one half-pole can also be combined with the standard pole supplied with the system to set the satellite at multiple heights. EVOX J11 supports a single half-pole + full-column array configuration only. This enables optimal coverage across different venues and setups. Black Version. Transport bag included.	
Standard compliance	Safety agency	CE compliant
